

Item P13-0265

Climb-N-Go Motorized System For Baker Type Scaffold

Designed to increase worker efficiency by eliminating the need to get off the scaffold to move it. Equipped with a powerful electric motor, it is propelled by the energy of an 18 to 21 volts battery from one of the six largest brands in the industry. Its wheels are installed on the bottom of the scaffolding and the joystick control on the guardrail or directly on a rung. With the Climb-N-Go, you will be able to move around your work site at height in a safe way. Compatible with all Metaltech Baker types scaffolding. Lighter and more compact than a scissor lift, and does not need a freight elevator to be moved around the job site. Complies with CSA S269.2-16 and OSHA standards 1926.452(W)
