

Item P25-0557

Coverguard® Floor & Wall Protection - Fire Rated

Completely **fire retardant** temporary floor and wall protection that is strong, durable, tear resistant and water resistant. Also resistant to most chemicals and solvents. Used to protect all types of finishes. Can be used internally and externally. Perfect protection for walls, windows, carpet, floors, decking, furniture, equipment and welding. Pliable enough to use for wrapping, covering and protecting all types of equipment, furniture or fixtures. Works on all types of surfaces. Coverguard®s unique diamond plate pattern provides anti-slip / anti-trip characteristics. Compact rolls are easy to handle for storage and use. Blue Diamond Plate Coverguard® is available in 36" and 72" widths and from 10mil. thick to 40 mil. thick. **Call your Colony representative for a full listing of available sizes.**

Please note: When installing Coverguard for concrete floors, please make sure the concrete has been cured for at least 28 days. The diamond plate can make an impression on the concrete. If the floor is exposed to finished concrete it is very difficult to remove.
