**Item P15-3044**

**DrilFlex® Structural Fasteners**

Specially designed to help alleviate hydrogen-induced brittle failures, DrilFlex self-drilling fasteners are formed from a special steel alloy and combine a high hardness drill point for easy and reliable drilling and tapping with a lower-hardness shank and head for increased ductility. Patented Stalgard® finish provides corrosion resistance far superior to conventional finishes. DrilFlex is designed for use in a wide variety of environments involving structural or high-stress connections and dissimilar materials. For additional technical information on DrilFlex, call your Colony representative for a complete catalog and submittal package. **Please note: DrilFlex is sold in box quantities only.**

Item	Description	Attributes
15-3044		<b>Model:</b> AF641 <b>Size:</b> 12-14 x 1" <b>Head Style:</b> HWH #3 point <b>Applications:</b> Steel & Aluminum <b>Qty. Per Box:</b> 4,000
15-3045		<b>Model:</b> AF681 <b>Size:</b> 12-14 x 1 1/2" <b>Head Style:</b> HWH #3 point <b>Applications:</b> Steel & Aluminum <b>Qty. Per Box:</b> 2,500
15-3047		<b>Model:</b> AF876 <b>Size:</b> 1/4"-20 x 1 1/2" <b>Head Style:</b> HWH #4 poin <b>Applications:</b> Steel & Aluminum <b>Qty. Per Box:</b> 2,000
15-3048		<b>Model:</b> AF890 <b>Size:</b> 1/4"-20 x 2 1/2" <b>Head Style:</b> HWH #4 point <b>Applications:</b> Steel & Aluminum <b>Qty. Per Box:</b> 1,000
15-3043		<b>Model:</b> BL215 <b>Size:</b> 12-14 x 1" <b>Head Style:</b> Undercut Flat Head #3 <b>Applications:</b> Steel & Aluminum <b>Qty. Per Box:</b> 4,000
