

**Item P11-9804**

**Eibenstock Diamond Core Drill Rig**

The DBE 201 is industry's most powerful, compact, and lightweight core drill rig. At 34 lbs., this diamond core drill rig's lightweight and streamlined design makes it extremely portable and easy to maneuver for any concrete drilling application. With a powerful 2500 W (18 Amp) motor, the DBE 201 leads its class in hole capacity – drilling up to 8" diameter holes. At CS Unitec, the value is in the engineering: with an ergonomic design and standard safety features, including a mechanical slip clutch and current overload protection, this core drill rig delivers increased safety, productivity, and user comfort. Call today to speak to one of our core drilling specialists.
