

Item P14-0127

Enviro-Cone® Traffic Cone

Unlike PVC cones, the Enviro-Cone is designed to withstand an impact with the tires of most vehicles. Manufactured from low density polyethylene, the Enviro-Cone® provides superior cold weather performance. No cracking or breaking down to -40°F. Enviro-Cone provides long-term durability. Color retention is excellent through the use of ultraviolet stabilizers and low density polyethylene (LDPE) increases the life of the product.

Item	Description	Attributes
14-0127		Size: 18"
14-0129		Size: 28"
14-0138		Size: 28" (with reflective striping)
