

Item P10-0386

Falltech 10' DuraTech® Web SRL with Steel Snap Hook

Compact size is simple to install and relocate as worksite changes require. Dyneema® web lifeline resists abrasion while providing trusted strength. Overmolded glass-filled nylon housing contributes unmatched impact resistance. Internal inertial braking system provides smooth deceleration with minimal fall forces. Integrated aluminum alloy swivel-eye helps to prevent lifeline twisting for smooth operation. Features alloy steel snap hook lifeline connector. Includes alloy steel anchorage carabiner. Complies with ANSI Z359.14-2014.
