

Item P14-0054

3M 8511 Dust/Mist Respirator With Valve

Features 3M™'s Cool Flow™ Exhalation Valve. This patented one-way valve offers easy exhalation and thus an escape for heat so the user stays cooler and breathes easier, particularly in hot environments. The easily adjustable M-nose clip helps provide a custom fit and a secure seal for greater comfort, better protection and less potential of eyewear fogging. Meets NIOSH 42CFR 84 N95 requirements. TC-84A-1299. **10 respirators per box.** Model 8511.
