Item P14-0856

Floor Masking Film

Similar to the Carpet Masking Film, but designed to protect virtually any hard flooring and grout joints during construction. This 3 mil, self-adhering polyethylene sheeting rolls on easily and stays where you put it. Provides a cushioned slip-resistant covering that shields surfaces such as linoleum, ceramic tiles, glass, cultured marble, counter tops and other surfaces from dirt, spills and stains than can occur during construction and remodeling activity. Withstands the most rugged jobsite conditions, yet removes quickly and easily leaving no residue to harm the floor. Roll is reverse wound for easy installation. (Please note: Once this product is applied, it should not remain on the floor surface for more than 30 days).

Item	Description	Attributes
14-0856		Roll Size: 24" x 200'
14-0858		Roll Size: 36" x 500'
