

Item P10-1616
Fluke TwistGuard™ Test Leads

The Fluke TL175 TwistGuard™ Test Leads offer adjustable length test tips for use in different measurement environments. By simply twisting the test lead the user can change the exposed probe tip length from .75" to .16". The TwistGuard™ adjustable tips enhance safety and versatility length. The WearGuard™ indicator shows damage to leads and provides heavy-duty strain relief to withstand over 30,000 bends.
