

Item P11-9090

Hitachi 10" Dual Slide Compound Miter Saw with Laser Marker

Unique, adjustable laser marker for precise cutting lines, easily adjustable to user preferences. Saw head bevels left and right for fast and accurate cutting. Soft start reduces noise and recoil during start up. State of the art 12 amp motor provides lots of power and many years of use. Dust collection bag minimizes dust. Dynamic electric brake stops blade movement within seconds. Also features an electronic speed control which maintains RPM while cutting. **Includes, TCT 40t blade, dust bag and wrench.**
