

Item P11-6793

Jackson® Heavy Duty Contractor Wheelbarrows

This is the strongest most durable Jackson tray available. The heaviest gauge steel is press formed and folded creating 3 thicknesses of steel for a seamless steel tray. It is welded at the folds, and the edge of the tray is reinforced with a continuous steel rod. Front tray braces, 'H' brace, steel cross strips and leg stabilizers are added for support and strength when pouring heavy loads. Blue tray, extra large, strong hardwood handles. Capacity: 6 cu. ft. Comes standard with a 16" pneumatic wheel.

Item	Description	Attributes
