

Item P10-2951

Jawhorse

The Jawhorse™ workstation replaces your workbench, your sawhorses, your clamps, your bench vises, and so much more. Powerful clamping jaws clamp almost anything and allow the user hands free access to the work. 37" max clamping range, can clamp wide items including doors. All solid steel construction, features the industrial pressing power of a one-ton machine press. Portable folding design.

Accessories Available

Welding Jaw- Holds and grounds two pieces of stock and welding.
Log Jaw - Securely grip up to 12" diameter lumber and timber for cutting and carving.
Saddlebag - Instantly attached to jawhorse for easy tool access.
Plywood Jaw - Allows for clamping of materials up to 50" wide (fits full sheet of plywood).
Miter Saw Station - Instantly mounts any miter saw. Rollers and roller supports included.
