

Item P89-2203

Metabo HPT Construction Stapler

The N5008AC2 Construction Stapler is used for construction work such as wall sheathing, roof decking, subflooring, mobile and modular home construction and making wooden boxes and expendable pallets. 4.4 lbs, lightweight and well balanced for easy maneuverability. Exhaust muffler reduces noise pollution. High capacity magazine holds 150 staples allowing for fewer replenishments. Open magazine design allows users to quickly check staple quantity. Quick-clear jam release increases user efficiency. Plastic magazine with stainless steel plating adds durability. Depth adjustment, to countersink or flush drive staples. Long-lasting rubber grip, for added comfort. Includes safety glasses and hex bar wrench.
