

Item P23-0079
Milwaukee 12:1 Infrared Temp-Gun™

The Milwaukee® Infrared Temp-Gun™ delivers the clearest screen and faster scanning. With stunning readability indoor & outdoor, this infrared temp-gun provides easier readings. Simple High/Low alert setup makes scanning easier and faster. With a 7-point reinforced frame, fully bumpered nose, and shielded LCD, the Milwaukee® Infrared Temp-Gun™ survives 6ft drops for superior durability. Measures surface temperatures -22°F to 1022°F for use in a variety of applications. 12:1 distance-to-spot ratio measures a 1' spot from 12' away. Premium LCD display for clear readings. User-configurable High/Low Temperature Alert. Clear button functions offer easy setup. Powered by 9V battery (not included).
