

Item P10-3577
Milwaukee M12™ 1/2" SDS-Plus Rotary Hammer

Subcompact cordless rotary hammer is 65% lighter, up to 4X faster and offers up to 75% more runtime than competitors. Ideal for tight spaces and all-day use, yet still provides power, productivity and portability. The 12V lithium-ion battery delivers 0-800 RPM and 0-5,350 BPM and drills more than 55 holes per charge. Unique electro-pneumatic design allows for drilling up to 1/2" holes in concrete and masonry. Two-mode operation, rotary hammer and rotary only, offers maximum versatility and dependable operation regardless of application or orientation. Compact, lightweight design helps reduce user fatigue. An on-board LED light illuminates the work surface. **Kit includes: two REDLITHIUM™ 1/2" extended capacity batteries, a charger and carrying case.**
