Milwaukee M12™ LED Lantern/Flood Light

The M12™ LED Lantern/Flood Light features an 180°-360° adjustable beam design to allow users to select between area lighting and task lighting for maximum versatility. With over 400 Lumens, the new unit delivers unmatched light output to illuminate large work areas. As an added value to the user, the light also includes a high power 2.1A USB port to charge tablets, smart phones, mp3 players and other electronic devices.
