

Item P10-9121

Milwaukee M12™ Sub-Compact Band Saw Kit

The Milwaukee Sub-Compact Band Saw is the most compact and lightest weight cordless band saw on the market. At less than half the weight and size compared to a traditional deep cut band saw, provides one-handed power and portability to electricians, maintenance professionals, and other users cutting small diameter materials. Weighs only 6.75 lbs and is 12" in length, making it ideal for overhead or one-handed cutting applications.

This powerful saw can cut through 3/4" EMT in only 3 seconds, and will deliver over 150 cuts per charge with the included M12™ REDLITHIUM™ XC High Capacity battery. With a 1-5/8" x 1-5/8" cut capacity and low vibration, the saw performs clean cuts on the most common small diameter metal cutting applications. Features a dual-latching lower guard that covers the blade outside the active cutting area, addressing OSHA guarding requirements and making the tool suitable for one-handed use. The tool also includes a variable speed trigger, and LED light. **Kit includes: (1) M12™ Cordless Sub-Compact Band Saw, (1) M12™ REDLITHIUM™ XC High Capacity battery, 30-minute charger, (1) 18 TPI metal cutting blade, and a hard carrying case.** Should be used only with Milwaukee® Sub-Compact Portable Band Saw Blades (Item 10-9130).
