Milwaukee M18™ LED Lantern/Flood Light

The M18™ LED Lantern/Flood Light features a 180°-360° adjustable beam design to allow users to select between area lighting and task lighting for maximum versatility. With over 700 Lumens, the new unit delivers unmatched light output to illuminate large work areas. As an added value to the user, the light also includes a high power 2.1A USB port to charge tablets, smart phones, mp3 players and other electronic devices. With a rugged design and impact resistant lens, the new light is built to withstand abusive jobsite conditions. (Battery sold separately)
