

Item P10-3258

Milwaukee M18™ ROVER™ Flood Light

Milwaukee M18™ ROVER™ Flood Light delivers up to 30% brighter light output than 250-watt halogen floodlights. The LED floodlight illuminates large workspaces with 8 high-quality LEDs that provide 1,500 lumens of TRUEVIEW™ High Definition Output. An innovative roll cage design and a replaceable impact-resistant lens, that stands up to the toughest working conditions. This compact floodlight features an octagonal shape so it can be positioned and used at multiple angles, and the versatile design delivers hands-free options for a variety of applications.
