

Item P10-3273
Milwaukee RADIUS™ LED 130W Temporary Site Light

Our 130W temporary site light delivers 15,000 lumens of TRUEVIEW™ High Definition Output. The temporary light is optimized to cover more floor space than a 400w Metal Halide while consuming 65% less power. When installed with Non-Metallic (NM-B) or MC cable, the job site light is capable of being used on temporary power systems from 120v-277v. The light has a high impact polycarbonate lens protecting the light source while you use or transport it. Features an integrated hanging cable and a 4' 120v plug.
