

Item P10-3032

Milwaukee Tilt-Lok 7 1/4" Circular Saws

Milwaukee's tried and true circular saw is now even better. This new and improved model features Milwaukee's new Tilt-Lok™ handle, which adjusts to any one of 8 different work positions. The upper and lower guards are made of magnesium, while the shoe is made of durable aircraft aluminum which reduces tool weight without sacrificing durability. Cushion grip handle for comfort and control. A new wide, clear sight line provides superior blade visibility from either side. **Includes Framing/Rip carbide blade and blade wrench.**
