Item P14-1655

Mobile Storage Chests

These storage chests are built tough enough to handle the job. Patented lock protectors are recessed and concealed for maximum security against drilling and cutting lock. (Model 1332 one lock protector only). Enhanced lid bolster adds support and durability. Lid handle has finger-groove for easy opening. Convenient storage tray on back wall for small items (except on Model 1332). Lid is held in the open position with steel support arms. Heavy duty piano hinges with non-removable pin. Large handles fold down and recess for convenient lifting. Built in 3-1/2" high support skids with holes for easy caster installation. **Optional casters sold separately.**

Recommended [Caster Set: 4"](#), [Caster Set: 5"](#), [Caster Set: 6"](#).
