

Item P12-9992

Moldex® R95 Series Respirators

NIOSH Certified under 42CFR84 regulations having filter efficiency level of 95% or greater against oil and non-oil based particulate aerosols up to 10 X PEL. Added carbon layer helps relieve workers of nuisance levels (less than OSHA Permissible Exposure Limit) of ozone and organic vapor odors or acid gas irritants. HandyStrap allows mask to conveniently hang around neck when not in use. The elastic cloth strap is more comfortable and cooler. Exclusive Ventex valve lets hot air out faster. Dura-Mesh shell protects filter media so it stays cleaner looking longer. Model #2740R95 - 10/bx.
