

Item P22-1022
MSA ALTAIR® Single-Gas Detector

MSA's ALTAIR Single-Gas CO, H2S, or O2 detectors operate for over two years maintenance-free. One-button operation with no sensor or battery changes necessary. Triple alarm system provides visual, audible, and standard vibrating alarms. Rubberized armor housing provides extra durability, superior dust and water protection (IP 67), and great RFI performance. Easy bump check and built-in calibration feature. Bump check confirmed with checkmark on instrument LCD, displayed for 24 hours. Event recorder stores 25 latest events automatically in instrument memory. Built-in IR communications enables interface MSA Link™ Software.
