

Item P19-1381

Multi-Fuel Heat Penetration Heater

Safer and deeper heat penetration with less intensity. Clean Exhaust by perfect combustion. Low noise design allows for quiet operation. Non-open flame safety design. Space saving, thin-flat design. Built-in-thermostat and timer function. This heater carries the properties of far infrared heat which by nature is able to penetrate deeper into objects in the way sun light works.

Specifications	
Heat Output	52,000 BTU/hr
Fuel	Kerosene or Fuel-Oil no heavier than No.2 (Diesel)
Fuel Consumption	0.32 gallons/hr
Tank Capacity	8 gallons
Continuous Operating Time	21 - 23 hours
Power Source	AC 120V 60Hz
External Dimension	36.2"×12.6"×45.3"
Operating Noise	50 dB (A)
