

Item P71-8000

Nitto Magnetic Drills

These portable drilling machines feature a semi-automatic feed mechanism. Powerful 1100 watt double insulated motor. Load detection system monitors and regulates motor speed and cutting feed and the overload stop detection system helps prevent motor and cutter damage. One-Touch arbor system requires no tools for cutter installation and removal. Precision machined die cast aluminum mainframe, motor slide and arbor support bracket.

Model #	WA-3500	
Specifications		
Model #	WA-3500	WA-5000
Amps/Watts	10.2/1100	10.8/1100
No Load RPM	950	350/650
Hole Capacity Diameter	1 3/8" Max	2" Max
Plate Thickness	2" Max	3" Max
Magnet Dimensions	3 5/8" x 8 1/2"	4" x 8"
Weight	44 lbs.	51 lbs.
