

Item P25-0171

96 Gallon 2-Wheel Greenstone Cart

96 Gallon 2-wheel greenstone cart with attached black lid. Textured granite finish hides scuffs and scratches. Carts are manufactured using Advanced Rotational Molding™ process for years of maintenance-free service. Rugged Rim design and bottom wear strip provide added strength where it's needed most. Carts contain up to 50% recycled content. Carts are flexible and impact resistant to handle the continued stress of automated waste collection. Lower handle height makes carts easier to tilt.
