

Item P81-2160

Paslode PowerFramer™ 30° Framing Nailer

Powerful enough to sink nails into LVL headers and beams every time. Lightweight allows you work faster with less arm fatigue. New rugged design withstands tough jobsites. Compact design fits into tight spots. Dual mode trigger easily switches from single or rapid cycles. Metal exhaust cap for maximum durability. Cushioned grip for all-day comfort. Tool-free depth changes nail depth in an instant and nail lockout prevents blank driving. Applications: Framing, sheathing, joists, rafters, fencing, decking and more.

Specifications
