**Item P99-8480**

**AC100+Gold® Adhesive**

The AC100+ Gold is a two-component vinyl ester adhesive anchoring system. The system includes injection adhesive in plastic cartridges, mixing nozzles, dispensing tools and hole cleaning equipment. The AC100+ Gold is designed for bonding threaded rod and reinforcing bar into hardened concrete and masonry. Evaluated for use in dry and water-saturated concrete including water filled holes. Suitable to resist structural loads in uncracked concrete base materials for cases where anchor design theory and criteria applies. Can be installed in a wide range of base material temperatures; qualified for installation structural applications in concrete as low as 14°F.

Code Listed ICC-ES ESR-2582
