

#### Item P20-0001

##### Access Doors

For new installations or remodeling in all types of walls and ceilings including drywall and masonry. Perfect concealment of rough wall opening is achieved by the exposed frame flange, which also adds rigidity to the unit. The frame is provided with holes for fastening within furred spaces. Door assembly consists of a steel cam-and-stud type catch operated by a screwdriver. Prime coated steel finish. **More sizes and styles available, including stainless steel. Access doors also available with cylinder locks. Call your Colony sales representative for a complete listing.** Manufactured by Elmdor.
