

Item P13-9052

Portable Outdoor Shelter Misting System

Fully portable, 2-gallon tank with pressurized hand pump, hose connection, and 25 feet of tubing with 8 stainless steel nozzles. Provides a super fine mist to help you cool down on the dog days of summer. Cools an area up to 30°F below ambient air temperature with heavy-duty plastic 2 gallon tank with top funnel for easy (re)filling. High performance pump with safety locking pressure-release valve *maximum pressure capacity of 40 PSI. Includes 25' tube and 8 nozzles for multiple installation options. Each set of pumps can provide up to 20 min. of misting with continuous misting with hose connection. Hook-and-loop straps included for easy attachment to tent frame.
