

Item P14-0527

10 Lockout Station

Permanent Center for equipment and departments. High visibility stations facilitate proper and convenient lockouts when located centrally or at each lockout point. Polystyrene construction with metal hooks. Features Master Lock Lightweight No. 410 Safety Series™ padlocks, designed exclusively for OSHA lockout compliance. Durable, lightweight, non-conductive Xenoy® lock bodies. Include permanent write-on labels (Eng., Fr. & Sp.) that allow instant on-site customization for each worker. Complies with OSHA's "one employee, one lock, one key" directive. High visibility red locks are supplied keyed-different. Include high security, reserved-for-safety cylinder, with more than 100,000 key cuts possible. Key-retaining ensures that padlocks are not left unlocked. Includes Safety Series™ hasps for lockout by up to 6 workers at each lockout point. Includes Safety Series™ heavy duty "DO NOT OPERATE" lockout I.D. Tags with brass grommets.
