

Item P14-0983

ProGuard Dura Cover

ProGuard Dura Cover provides temporary protection for installed floor systems. ProGuard Dura Cover is a multi-ply, textured membrane laminated with a nonwoven polypropylene geotextile. The fibers will not absorb the stain on fresh decorative concrete installations, nor will it scratch wood, ceramic tile or finished floor systems. Provides protection from construction traffic, dust and debris, liquid spills, paint spills and other construction related potential hazards. When installing, overlapping seams should be secured with ProGuard Seam Tape. The one and only floor protection product for polished concrete floors!

Item	Description	Attributes
14-0983	ProGuard Dura Cover	Size: 6' x 150' roll
14-0987	ProGuard Seam Tape	Size: 4" x 150' roll
