

Item P12-4159

Quickbraz® Oxy-Fuel Refrigeration/Air Conditioning Outfit

A new and unique standard in brazing. The durable Kevlar hose connects to any standard regulator. Patented C-style tips surround the joint for complete solder flow, providing 100% flame wrap for fast, efficient even heating even on the blind side of the brazing joint. Precise concentrated flame control protects surroundings from damage or loosening of surrounding joints. Kit comes complete with cylinder caddy, tank wrench, striker, check valves, torch tips including the patented c-style tip, regulators, hose and manual.
