

**Item P13-0144**

**Ridgid Power Pipe Cutters**

Produces clean, square cuts quickly and easily with no abrasive dust, sparks or open flame. A powerful 10 ton hydraulic cylinder, quick-coupled with a two-speed foot switch applies downward pressure to the pipe, while a large cutting wheel powered by a Ridgid 700 Power Drive rotates and produces the cut. Cuts Sch. 10 steel pipe, Sch. 40 steel pipe, galvanized pipe and rigid conduit. Two models available. Standard equipment includes cutter with hydraulic ram, two speed foot pump and hose, two pipe supports, general purpose cutter wheel and adapter for the 700 Power Drive. Can also be purchased complete with 700 Power Drive. Optional transport cart fits both models
