

Item P10-2831
TS500i Stihl® CutQuik®

Industry's first electronically controlled fuel-injection system. The TS 500i offers more power, higher cutting rates and easier servicing. When it comes to building roads and construction work above or below ground, the Stihl TS 500i makes light work of tough jobs. Increases power by 17% and cutting speed by 15% over model TS 420. Low-emission engine provides optimal torque throughout the RPM range. Simplified starting eliminates the need for a choke, simplifying the starting procedure. Electronic water control feature makes using water easy and efficient with easy adjustment of water flow. Lightweight and compact, well-balanced design for comfortable operation.

Specifications	
Displacement	4.41 cu. in. (72.2 cc)
Engine Power	5.2 bhp (3.9 kW)
Tool Weight	22.5 lbs
Fuel Capacity	24.5 oz. (725 cc)
Max Spindle Speed	5,350 rpm
Arbor Size	20 mm
Wheel Size	14"

Item	Description	Attributes
10-2831	TS500i Stihl® CutQuik®	Model: TS00i
19-1157	14" x 20MM Segmented Diamond Asphalt Blade	
19-1159	14 "x 20MM Segmented Concrete Diamond Blade
