

Item P10-9699

Arbortech Allsaw Masonry Restoration Kit

The new generation Allsaw's functionality has been significantly enhanced and it continues to be a safe alternative to the Diamond Grinder. In accordance with OSHA regulations, the ALLSAW has been tested and proven to be significantly below the crystalline silica standard when operated with the Heavy Duty Dust Boot and a HEPA certified vacuum. With an improved motor and belt, this is an essential tool for trade applications. **Includes General Purpose Blades, Plunge Blades, Headjoint Blades, a Dust Boot, and a Heavy Duty Dust Boot.**
