

Item P10-0118

Wap® Attix 19 Gal. Wet/Dry Vacuums

The Attix 19-gallon wet and dry vacuum features the XtremeClean filter cleaning system and electric tool start and speed control. With this system there is no need to stop working as the filter is continually being cleaned – automatically. No buttons to press or canisters to open. Powerful air pulses gently clean the filter, keeping suction performance at its peak, and extending the life of the filter. Sturdy steel frame and stainless steel canister which tilts or lifts out. Offered with a handy tool tray and suction tube holder. Low noise level at 57d(B)A. Features automatic on/off. Comes standard with heavy duty hose 1.5" x 13', curved wand, extension tube, metal floor nozzle, crevice nozzle, washable filter cartridge and filter bags (5/pk).
