

**Item P14-8089**  
**Werner Type IA Fiberglass Leaning Ladder**

Werner Fiberglass Leaning Ladder has a duty rating of 300 lbs. LEANSAFE® ladder top secures tools and accessories, and is uniquely designed to securely lean against flat wall surfaces, wall corners, poles, and wall studs and perform as a standard stepladder. LEANSAFE® ladders have a lower rear rail to front rail connection point allowing the user to get closer to the work when in stepladder mode. Leaning a ladder safely requires that the rear rail is latched to the front rail. Werner's patent pending single latch design stays engaged when needed, and is centrally located to easily open and close. Fiberglass rails are non-conductive for working near electricity.
