

Item P30-0191

Whip Hose Assembly

Short hose assembly with a 1/2" I.D. used as a flexible connector between supply hose and tool. Used to protect couplings from breakage due to the constant vibration created by hammers, rivet busters and paving breakers. One end of the whip hose connects to the tool, while the other end connects to the air supply with the quick acting coupling. Whip hoses should remain permanently connected to the tool and should be the same diameter as the supply line hose. Assembly includes a universal on one end, and a Bent Stem Swivel on the other. Working Pressure: 300 PSI.

Item	Description	Attributes
30-0190		Size: 1/2"-6 ft. Bent Stem Swivel Size: 1/2" NPT
30-0191		Size: 1/2" - 10 ft Bent Stem Swivel Size: 3/8" NPT
