Item P11-7237

Bosch 12V Max Wall/Floor Scanner with Radar

Features radar technology which is not just a stud finder, it detects live and non-live cables, rebar, metal, plastic pipes and wooden studs, with depth indication of the object. The scanner's screenshot feature supports quick-and-easy documentation that can be saved and transferred to a computer. The USB-C™ and SD card slot enables quick data transfer. The spot view delivers fast results and measurements in small places to scan (such as corners), and the scanner provides about a 7-1/2" measuring depth to detect even deep objects. The 3.5" color display provides clear readability, and the user interface is intuitive, providing clear illustration of detected objects. **Includes: 12V Lithium-Ion 2.0 Ah battery, 12V battery charger, USB cable and soft pouch.**
