

Item P10-2364
Bosch 18V EC Brushless 1.25" Stroke Multi-Grip Reciprocating Saw Kit

Balanced easy-handling saw design features angled-motor design, 19.0" length and 7.7 Lbs. (tool only) weight. Three orbital saw settings (0-1-2) allow optimized cutting in all types of materials. Powerful 18V EC Brushless motor delivers efficient, next-gen corded-like power and enhanced runtime. Vibration Control counterbalance technology limits vibration for easier handling and comfort. Variable-speed control includes a dial to set max speed and a long, easily reachable accelerator trigger to control operating speed. Double LED light offers outstanding illumination even in dark, tight work areas. Adjustable footplate enables control of the cutting depth and use of a wide array of the blade's teeth, for more efficient operation. Kit includes: 18V CORE18V Lithium-Ion 8.0 Ah Performance Battery, 18V Fast Charger, (2) 6" Bi-Metal Reciprocating Saw Blades, and Carrying Case.
