

Item P10-1938
Bosch 18V EC Brushless Connected-Ready Flexiclick® 5-In-1 Drill/Driver System

Flexiclick® Chameleon 5-in-1 design delivers outstanding versatility in an EC Brushless, compact, high-quality drill/driver. EC Brushless motor provides efficiency for a tool that weighs just 2.1 Lbs. (tool only) but delivers 535 In.-lbs. of torque. Locking bit holder locks hex bits for high-torque driving. Right-angle chuck is designed for tight work spaces; rotates to 16 positions without removing from tool. Offset-angle attachment offers precise performance very close to edges; rotates to 16 positions without removing from tool. KickBack Control limits rotation of tool in a bind-up scenario. Keyless chuck attachment provides locked-in drilling for difficult materials. LED light illuminates dark work areas effectively. **Kit Included: 18V EC Brushless Connected-Ready Flexiclick® 5-In-1 drill/driver, metal keyless chuck attachment, right-angle attachment, offset-angle attachment, 18V CORE18V Lithium-Ion 4.0 Ah compact battery, 18V charger, 4x bit holder, (4) bits, belt clip, and carrying bag.**
