

Item P10-2330

Bosch 18V Lithium-Ion Cordless Jig Saw (Bare Tool)

The Bosch Lithium-ion 18V jig saw is compact and lightweight. Its T-shank blade change system allows the user to insert the blade just without the need for any tools, and when it's time for a blade change, a turn of knob ejects the blade, so there is no need to touch a hot blade. This jig saw also features an always-on blower and integrated LED light for enhanced visibility in the cutting area. **Includes: Anti-Splinter Insert. Battery not included**
