

Item P10-9086

Bosch 4-1/2" Angle Grinder

4-1/2" Angle grinder is a light, handy grinder with plenty of power – 8.5 amps and 11,000 rpm. It has direct-motor cooling, giving it higher overload capabilities, and it has directed air flow that diverts dust away from vital components. This grinder has a two-position side handle. It has a burst-protection quick tool less adjustable guard, a fast-change disc change and a large spindle lock. The Service Minder™ brushes stop the grinder when preventative maintenance is required. Includes: auxiliary handle, wheel guard, flange kit, spanner wrench and abrasive wheel.
