**Bosch Speed Clean™ Drill Bits**

Bosch Speed Clean™ drill bits are built using a solid piece of steel with a dust channel milled to Bosch specifications to extract dust while drilling, creating 25 percent greater drilling speed. The dust extraction bit system saves time, saves money and produces 90% less dust than traditional drilling methods. The bit life is comparable to the life of Bosch Bulldog™ SDS-plus® bits. The Speed Clean™ bit, connected to vacuum system, installs adhesive anchors up to 50% faster when compared with the standard hand-cleaning method. A proprietary Bosch design allows dust and debris to be removed through the milled center of the bit. A rubber vacuum adapter is provided with every Bosch Speed Clean™ bit. Speed Clean™ is a part of the Bosch dust-collection system that helps you become compliant with OSHA silica dust regulations.

| Item    | Description | Attributes                   |
|---------|-------------|------------------------------|
| 10-0340 |             | Size: 7/16" x 7-1/2" x 13"   |
| 10-0341 |             | Size: 1/2" x 7-1/2" x 13"    |
| 10-0342 |             | Size: 9/16" x 10" x 15"      |
| 10-0343 |             | Size: 5/8" x 10" x 15"       |
| 10-0344 |             | Size: 11/16" x 12-1/2" x 18" |
| 10-0345 |             | Size: 3/4" x 12-1/2" x 18"   |
| 10-0346 |             | Size: 3/4" x 12-1/2" x 21"   |
| 10-0347 |             | Size: 7/8" x 15" x 25"       |
| 10-0348 |             | Size: 13/16" x 15" x 25"     |
| 10-0349 |             | Size: 1" x 17-1/2" x 27"     |
| 10-0350 |             | Size: 1-1/8" x 20" x 29"     |
| 10-0351 |             | Size: 1-3/8" x 25" x 34"     |
