Tools, Supplies and Safety Products for Contractors

## EMERGENCY RESPONSE FIRST AID BAG

OSHA Standards for Bloodborne Pathogens (BBP, 29 CFR 1910.1030) and Personal Protective Equipment (PPE, 29 CFR 1910 Subpart I) require employers to protect workers from occupational exposure to infectious diseases. Providing for the proper handling of bloodborne pathogens (BBP) or bodily fluid incidents should be a part of your safety program.

The Workplace Emergency Response bag has treatment packs organized by injury type which makes finding the right supplies fast and easy, when seconds count.

### Response Kit Includes

Bloodborne Pathogen Pack

Wound Care Pack

Burn Care Pack

CPR & Sprains Pack

Eye Care Pack

Bleeding Control Pack

### Workplace Emergency Response Kit Item: 25-0642
