

Item P10-1680

Core Cut Push Gas Saw 18"

Powered by a 13 HP Honda engine, this saw is compact, rugged and portable. Accepts an 18" blade for a 6 5/8" cutting depth. Allows for left or right hand sawing. Large 8" rear wheels and 5" front wheels for easy maneuverability over the roughest surfaces. Positive lock screw feed raise and lower mechanism allows precision blade depth and feed adjustment. Innovative multi-spray system gets coolant to both sides of the blade from the arbor to the top of the blade. Arbor Diameter: 1" with single drive pin. Blade shaft RPM: 2,600. Weight: 210 lbs.
