

Item P19-1239

Diamond Ductile Blades

Offers numerous advantages over abrasive style cutoff blades. Specially formulated diamond segments cut ductile pipe faster and cleaner. Electroplated silicone carbide grit on the face of the blade dresses the pipe as you cut, eliminating sharp edges and burrs. Lasts as long as up to 60 abrasive blades saving both time (less blade changes) and money. Designed to be used on gas or electric hand held cutoff saws, as well as stationary electric chop saws.

Item	Description	Attributes
19-1239		Diameter: 12" 20mm Arbor: 20mm
19-1243		Diameter: 14" 20mm Arbor: 20mm
19-1247		Diameter: 16" 20mm Arbor: 20mm
19-1237		Diameter: 12" 1" Arbor: 1"
19-1241		Diameter: 14" 1" Arbor: 1"
19-1245		Diameter: 16" 1" Arbor: 1"

For use solely on ductile iron pipe. Use caution to properly secure pipe before cutting and use all protective wear as stated in OSHA standards!
