

Item P23-0009

Digital Multimeter

Compact, versatile, and jobsite tough, this economical meter is easy to use. Features autoranging capability for convenient operation and data hold to capture measurements. 6000 count LCD display for greater accuracy. Relative offset display mode displays relative changes in measurements. Also has frequency, temperature, and capacitance measurements. Impact-absorbing boot enhances durability. Includes two (2) AAA batteries, test leads and bead temperature probe. Compares favorably in features and quality to Fluke Model 75. Manufactured by Greenlee.

Specifications

Voltage Measurement: 60.00, 600.0, mV; 6.000, 60.00, 600.0, 1000V

Amperage Measurement: 600.0, 6000µA; 60.00, 600.0mA; 6.000, 8.00A

Resistance: 600.0; 6.000, 60.00, 600.0 k; 6.000, 60.00 M

Capacitance: 60, 600 NFD, 6, 60, 600, 3000MFD

Frequency: 10Hz - 50kHz sine wave; 5Hz-999.9kHz logic level square wave

Temperature: K type, -58 to 1832 °F (-50 to 1000 °C)

Measurement Category: CAT IV 300V; CAT III 600V; CAT II 1000V

Item	Description	Attributes
23-0009	Professional Multimeter	Model: DM-210A
